Certifications

Free Code Camp

[Full Stack Certification](#)

- ☐ [Responsive Web Design](#)
- ☐ [Javascript Algorithms and Data Structures](#)
- ☐ [Front End Libraries](#)
- ☐ [Data Visualization](#)
- ☐ [APIs and Microservices](#)
- ☐ [Information Security and Quality Assurance](#)

Career Objectives/Summary

Fill in this section.

Become less boring and better at writing resumes.

Put all the buzzwords in a single paragraph.

Selected Projects

Full Portfolio

<https://moto42.github.io/portfolio/index.html>

A page to better display some projects. Uses Vanilla JavaScript to control CSS transitions and keep selected project in view when opened.

Skills demonstrated: HTML, CSS, Javascript, Responsive Web Design

Personal Library Catalog Back End

A Node.js server presenting a REST API to track and inventory books in a relational database. Also delivers a web-app front end. Made without Express, only dependencies are Node and MySQL for Node. Deployed on Heroku.

Skills demonstrated: Javascript, Node.js, REST APIs, MySQL,

Personal Library Catalog Front End

<http://m42catalog.herokuapp.com/>

A Single Page Application written with React.js. Allows user to lookup books by keyword, filter the results, and add new books and locations to keep them in to the database on the back end.

Skills demonstrated: HTML, CSS, Javascript, React.js, REST APIs

Anonymous Message Board

<https://m42-messageboard.glitch.me>

Wrote a REST API, database logic, and functional tests for the back end. Redesigned the front end to be an actual message board rather than just an API testing tool.

Skills demonstrated: HTML, CSS, Javascript, Responsive Web Design, Node.js, Express.js, automated function testing, REST, UX Design
